VOLUME 17

PRINCIPAL'S MESSAGE

Dear families and community,

Thank you to all the families that braved the inclement weather last Tuesday to support Sports Day. Despite the rain, it was a fabulous day and ran really smoothly thanks to the organisation of Mr. Chau and the great leadership shown by our Team Leaders.

It was lovely to see teams and classes working together and supporting each other. It was also great to see our students showing resilience and flexibility when things changed due to the weather.

Last Friday, staff spent the Pupil Free Day building our learning. Part of the day was spent exploring how IT can support and enhance student learning. We also spent part of the day focusing on how we building positive behaviour and student wellbeing. It was a positive day and one that enables us to keep improving.

Just a reminder - COVID and Whooping Cough are around at the moment. If your child is showing signs of illness (high temperature, cold symptoms, lethargy) please keep your child home.

Thank you. Have a great week. Denise

DISPOSITIONS FOR LEARNING

OPEN-MINDED

In our ever-changing world, cultivating open-mindedness in students is vital for their personal and academic growth. Open-minded learners are willing to consider new ideas, perspectives, and experiences, which enriches their understanding of the world around them. This disposition encourages curiosity and a love for learning, as students become more receptive to exploring diverse viewpoints.

When students embrace open-mindedness, they develop critical thinking skills that allow them to analyse information more effectively. They learn to question assumptions and challenge their own beliefs, fostering a deeper understanding of complex issues. This skill is particularly important in today's global society, where collaboration and communication with individuals from different backgrounds are essential.

Moreover, open-minded learners are more empathetic and respectful towards others. By appreciating diverse perspectives, they create a more inclusive and supportive classroom environment. This sense of community enhances teamwork and cooperation, making it easier for students to work together on projects and resolve conflicts.

At Modbury South Primary School, we encourage open-mindedness through discussions, group activities, and exposure to various cultures and ideas. By nurturing this important disposition, we empower our students to become thoughtful, adaptable individuals who are prepared to thrive in a diverse world. Let's continue to support our children in developing open-mindedness!
